SUMMARY

UI/UX Designer with experience designing 2+ educational games and 6+ interactive learning modules for K-12 learners. Skilled in Figma, wireframing, prototyping, design systems, user flows, and usability principles. Experienced in collaborating with cross-functional teams to create intuitive, user-centered digital products and developer-ready design solutions.

EXPERIENCE

Direction Educare (Dreamplex Innovations Pvt. Ltd.) | Apr 2026 – Present

- Designed interactive educational games and learning experiences for K-12 learners using Figma.
- Created user flows, wireframes, high-fidelity UI, reusable components, and developer-ready designs.
- Collaborated with cross-functional POD teams to deliver engaging game-based learning experiences.
- Designed game mechanics, interactions, and feedback systems to improve usability and learner engagement.
- Produced storyboard assets, game visuals, and interactive UI for educational content.
- Refined designs through feedback to ensure quality and user-centered experiences.

UI/UX Designer Intern | ExaltRide | Jan 2026 – Mar 2026

- Designed UX for 13+ admin modules, including dashboards, tables, filters, modals, and role-based workflows.
- Improved dashboard usability through visual hierarchy, data grouping, and scan-friendly layouts.
- Designed 8+ vendor panel features, including a multi-step Marketing Plan module.
- Delivered 30+ production-ready screens across Admin, Vendor, and User platforms.
- Redesigned the consumer website with a mobile-first approach to enhance navigation and usability.

Software Design Engineer - UX/UI | CeroED Technologies Pvt Ltd | Aug 2025 – Oct 2025

- Designed 10+ multi-screen workflows to improve task completion and navigation.
- Built a design system with 30+ reusable components for consistent UI.
- Standardized spacing, typography, and layout patterns to improve interface consistency.

- Collaborated with developers to deliver responsive, production-ready interfaces.
- Created 5+ AI-assisted marketing videos supporting product launches and promotions.

PROJECTS

Spark – Premium Dating Experience (UI/UX Case Study)

- Designed an end-to-end premium subscription experience for a modern dating application.
- Created 12+ mobile screens covering onboarding, discovery, profiles, subscription plans, and premium features.
- Designed paywall, pricing, and membership flows with a clear information hierarchy.
- Built reusable components and a scalable design system for consistent mobile UI.
- Optimized navigation, visual hierarchy, and interaction patterns for an intuitive user experience.
- Tools: Figma, Auto Layout, Components, Variants, Prototyping

FinTrack – Personal Finance Dashboard (UI/UX Case Study)

- Designed a responsive finance dashboard for budgeting, expense tracking, and financial insights.
- Mapped 5 core user flows covering transactions, budgeting, analytics, goals, and onboarding.
- Created 15+ wireframes and high-fidelity screens to validate layout and information hierarchy.
- Built a scalable component library with 20+ reusable UI components.
- Designed interactive dashboard prototypes focused on readability, data visualization, and usability.
- Tools: Figma, Design Systems, Auto Layout, Prototyping
