SUMMARY

UI/UX Designer who designs in Figma and ships the code. 4+ educational games and 2+ interactive story flipbooks for K-12 learners designed end-to-end and developed in HTML, CSS, and JavaScript - live in production. Professional experience across EdTech and e-commerce: scalable design systems (30+ reusable components), high-density admin dashboards (30+ production screens), and game-based learning. Strengths: user flows, wireframing, prototyping, interaction design, design systems, usability, developer handoff, and frontend development (JavaScript, React).

EXPERIENCE

UI/UX Designer & Developer | Direction Educare (Dreamplex Innovations Pvt. Ltd.) | Apr 2026 - Present

- Own the full lifecycle of interactive educational games for K-12 learners: curriculum concept, game mechanics, Figma design, and hand-coded production build, within cross-functional POD teams.
- Designed and developed 4+ educational games and 2+ interactive story flipbooks, live in production and used by school students.
- Built every game in vanilla HTML, CSS, and JavaScript with responsive layouts that run smoothly on low-end phones, tablets, and classroom smartboards.
- Designed game mechanics, difficulty pacing, and layered feedback and hint systems (guided demonstrations, idle nudges, mistake recovery) that improve usability and learner engagement.
- Produced storybook assets, game visuals, and interactive UI alongside user flows, wireframes, and high-fidelity, developer-ready designs.
- Built a reusable in-app visual QA tool (vanilla JS + Supabase: PostgreSQL with Row-Level Security, password-gated Edge Functions) - testers pin structured bug reports directly on live builds and export CSV bug sheets, replacing manual spreadsheets.

UI/UX Designer (Intern) | ExaltRide | Jan 2026 - Mar 2026

- Designed UX for 13+ admin modules - dashboards, data tables, filters, modals, and role-based workflows - improving scanability through visual hierarchy and data grouping.
- Designed 8+ vendor panel features, including a multi-step Marketing Plan module and streamlined bulk product-listing flows.
- Delivered 30+ production-ready screens across Admin, Vendor, and User platforms on one scalable design system.
- Redesigned the consumer storefront mobile-first with app-like navigation patterns (bottom tabs, thumb-zone layouts).

Software Design Engineer - UX/UI | CeroED Technologies Pvt Ltd | Aug 2025 - Oct 2025

- Designed 10+ multi-screen workflows improving task completion and navigation.
- Built a design system of 30+ reusable components; standardized spacing, typography, and layout patterns across the product.
- Collaborated directly with developers to ship responsive, production-ready interfaces.
- Created 5+ AI-assisted marketing videos supporting product launches.

PROJECTS

Tray Trouble - Learning Game for Kids | Live: tray-trouble.vercel.app

- Designed and built a complete educational game end-to-end - concept, game mechanics, UI, layered feedback and hint systems, audio, and a hand-coded vanilla JS build, responsive from phones to desktops. Play: tray-trouble.vercel.app | Code: github.com/CodeWithPiyush0/Tray_trouble

FinTrack - Personal Finance Dashboard (Design to React Build)

- Designed and developed a responsive finance dashboard: 5 core user flows, 15+ high-fidelity screens, and a 20+ component library in Figma, then built the frontend in React with interactive data visualization (transaction logs, budget progress, goal tracking).
- Architecting the MERN backend (MongoDB schema, REST APIs) for full-stack deployment; code: github.com/CodeWithPiyush0/fintrack-frontend.

TECHNICAL SKILLS

- **Design:** Figma (Auto Layout, Components, Variants), Design Systems, Wireframing, Prototyping, High-Fidelity UI, Responsive Design, Dashboard Design, Game UI
- **UX:** User Flows, Information Architecture, Interaction Design, User Research, Usability, Accessibility, Developer Handoff
- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, Web Animations, Responsive Development
- **AI & Prompting:** Prompt Engineering, ChatGPT (ideation, image generation), Claude, OpenAI Codex & Cursor (AI-assisted development), Google Flow (video generation), Ludo AI (sprite/GIF generation), Canva
- **Tools:** Git, GitHub, Vercel

EDUCATION

- Master of Computer Applications (MCA) | Chandigarh University | 2023 - 2025 | CGPA 7.2
- Bachelor of Computer Applications (BCA) | Nitishwar College, Muzaffarpur | 2019 - 2022 | 80.78%

LANGUAGES

English, Hindi
